

For Immediate Release: 25 September 2019

**MEDIA RELEASE
ASX: GLH**

Sales alliance in Malaysia

Global Health is pleased to announce a sales and distribution alliance with TM ONE, the enterprise and public sector business solutions arm of Malaysia's leading integrated telco, Telekom Malaysia Berhad (TM).

Global Health is one of two healthcare integration partners in TM's Hyperconnected Health System which supports the Digital Nation aspiration for the Malaysian Healthcare industry.

The initial focus of the Hyperconnected Health ecosystem will be to provide a Health Information Exchange with connectivity across public and private healthcare providers using Global Health's CHR (Connected Health Records) SaaS platforms as appropriate. The alliance contemplates an initial period where TM and GLH will work together with early adopters to assess product/market fit.

Mathew Cherian said "As the major supplier of telco services to the public and private healthcare sector in Malaysia, TM are ideally placed to drive the adoption of digital health in both the public and private sector. This is an exciting opportunity and we are delighted at the opportunity to work with TM ONE in this major initiative."
